

This decision form allows retailer to manage the online store planning for each SKU in the retailer’s Elecssories portfolio for urban market. The values from previous period are shown by default and the retailer can change it. All the changes are highlighted in red. If the decisions are not validated within the deadline, those from the previous period are submitted.

Store Management – Urban – Elecssories						
				Promotions		
Brands		Order Volumes (units mln)	Shelf Space Allocation (%)	Retail Prices (\$)	Frequency (Days)	Depth (%)
